Work Experience

Software Development Intern
May 2014 - Present

Elegant Thought

Education:

University of Arizona – Tucson, AZ

B.S. Computer Science (Graduation 2016)

Major GPA: 3.75

Cumulative GPA: 3.395

Skills

- ◆ Programming Languages: Java (extremely proficient), Python (proficient)
- ◆ Version Control Systems: Git (proficient)
- ◆ Tools: Vim (proficient), Ubuntu (proficient), Maven(beginner-proficient)

Personal Project Portfolio:

The Four Nations

November 2013 – December 2013

Technologies:	Java, Eclipse, Git, GIMP
Description:	A settlement management game based in the Avatar: The Last Airbender universe. Designed by four people over the course of 2 months. Includes a save/load system, a custom designed Swing UI, and a resource management system that players must manage. Personally designed menu interactions, menu dialogs, class documentation, content serialization, and various game interactions.
Project Location:	github.com/gizmo385/TheFourNations

Java Fiddle

February 28th 2014 – March 1st 2014

Technologies:	Java, Python, Tornado, JavaScript, JQuery, HTML, CSS
Description:	A web application that allows for compilation and execution of basic Java programs. This functions in a similar fashion as JS Fiddle. Written over an 18 hour period during annual University of Arizona ACM's Hackathon. Won the Google sponsor prize.
